West Central High School strives to provide a well-balanced education. In doing so, we have partnered with local area colleges and universities to provide our students the opportunity to take college level classes while still in high school. In our partnership with colleges/universities, West Central has developed a grade and credit granting policy in order to award students both high school and college level credits. Students must choose, for each class in which they are enrolled, whether they would like the enrollment to be considered *dual credit*, or *dual enrollment*. For the purposes of West Central's record keeping, please reference the following definitions when making this decision.

Dual Credit: A dual credit course will grant the student a WCHS credit and grade, as well as college credit and grade. The grade earned from this course will count towards the student's high school GPA and will be reflected on their transcript.

Dual Enrollment: A dual enrollment course will allow the student to take a college level class while in high school, but will ONLY grant credit and a grade at the college in which they are enrolled. The student will NOT be granted high school credit, and the grade they earn will NOT count towards their GPA or be reflected on their transcript.

Students will be asked to designate, for each college class, whether they would like the class to count as dual credit or dual enrollment for WCHS. Once the designation has been made, the student will have 1 week to revoke/change their decision.
